- 10 -

What Is Claimed Is:

　　　1.　A portable telephone set, comprising:

　　　a read only memory in which program data are stored;

　　　a volatile memory for backing up the program data; and

5　　　means operable when said portable telephone set is in

a mode in which rewriting of said read only memory is allowed

for writing part or all of the program data backed up in said

volatile memory replaceably into said read only memory.

　　　2.　A portable telephone set as claimed in claim 1, wherein

10　　the program data stored in said read only memory are stored

in a program arrangement in accordance with an arrangement of

memory blocks of said read only memory and can be rewritten

in a unit of a block.
